

Your home, as new. It's that simple!

Planning a renovation? Settling into a new place?

Or maybe you just need a change?

With Vilo products you can change your place on your own:
affordable, quick and easy. And the effects will be unique.

The floor is the foundation of every home.

Think about how to finish it right. Vilo skirting boards
will give your house's interior a harmony and amaze
you with their convenient installation and functionality.

Take care of every detail

We all love when every part fits perfectly together. That's why we renovate! Thanks to the large selection of Vilo skirting boards you'll be able to customise them to the look of your house and the wide range of available colours will help match them to your floors.

Acquaint yourself with the possibilities and consider which skirting boards will best fit your interior. You will easily find those both for modern as well as more vintage interiors. The newest designs can even be used with ceramic tiles or vinyl subbases.

For anyone and any interior

Vilo skirting boards are both extremely durable and practical. They are quick and simple to install, resistant to moisture and impact as well as easy to clean. They are fixed in place with hammer plugs which ensures that the skirting boards will remain in place and the array of finishing elements (corner pieces, cover caps, connectors) will ensure a satisfactory end result.

If functionality is what you enjoy, then you'll appreciate the ability to conceal electrical cables within the skirting board. Some of the skirting boards can also be bent at the top, which will enable you to paint or paper your walls without the need for disassembly. If you care for the environment, you will be pleased to know that all Vilo skirting boards are 100% recyclable.

Discover the Esquero, Esquero Duo, Izzi Max, Izzi, Magnum and Flex collection and find the skirting board for you.

Skirting boards collection

The effect is in the detail

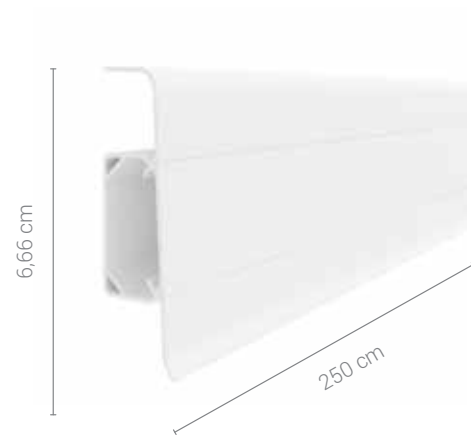

Vilo skirting boards are the perfect finish to any floor, especially one with wood-inspired Vilo floor panels. Colour, style, height... When choosing skirting boards remember to take a look at the walls. Maybe they need a new coat of paint? You can do this quickly and simply by choosing Motivo decorative walls. The skirting boards will provide the finishing touch, adding an element of visual harmony to your interior.

Well hidden cable chamber

Esquero | Skirting boards

A simple shape, the attractive height, a large selection of colours following the latest trends. With a lot of space for cables.
In short: a modern, elegant skirting board, suitable for anyone.

811 White

Do it yourself
Light, robust and intuitive to install.
Fit the skirting boards yourself or with family and enjoy the immediate effect.

Izzi | Skirting boards

Aesthetically pleasing and practical. The skirting board surprises with its wealth of colours. Notice the variants with the silvery embellishments. Izzi can fit a lot of cables, can be bent at the top (enables painting without skirting board disassembly) and is particularly durable. It's no surprise that this skirting board is extremely popular.

Easy to clean

All Vilo skirting boards are easy to clean and cleaning will not alter their appearance. Skirting boards also protect against dust.

Izzi Max | Skirting boards

A simple method for a great result? Go for Izzi Max - a tall skirting board with a carefully fine-tuned shape and a beautiful wood grain finish. As any Vilo skirting board, Izzi Max will surprise you with its rapid assembly, perfect masking and protection against dust. And when you feel the urge to paint or paper the walls, you don't have to disassemble it.

In doubt?

Visit our website at www.vilohome.com. There you will find videos and assembly instructions for our skirting boards.

You’ve chosen the skirting boards ideal for your floor - now it’s time to assemble them. This effect is very quick and easy to achieve.

Step by step assembly

1. Prepare tools: a sharp saw, a drill and hammer plugs.
A pencil, measuring tape and hammer may also come in handy.
2. Peel off the label – on the back you’ll find detailed instructions for assembly for the Vilo skirting board chosen by you.
3. Cut the skirting board to the appropriate length and only then take off the clip.
4. Attach the skirting board to the wall using the hammer plugs.
5. If necessary, slide the cables through the cable housing.
6. Finish off by adding any necessary finishing elements.

Each Vilo skirting board collection contains a set of finishing elements of matching colour and height: a connector, an inside corner, an outside corner, a right cover cap and a left cover cap.
